EDUCATION

International Institute of Information Technology

Hyderabad, India

B.Tech (Hons) in Computer Science

MS by Research in Computational Humanities

2015-2020

EXPERIENCE

Research Intern

June 2018 - Aug 2018

Indian School of Business, Hyderabad

Coordinated inter-domain analysis of VC firms & patents filed in India using data extracted through LinkedIn, VCC Edge & IP India.

Data Science Intern

June 2017 - July 2017

Lumata Digital, Noida

Implemented an n-gram sentiment analysis on search text based on username or hashtag that led to over 80% accurate sentiment detection of text and emoticons.

Software Engineering Intern

Aug 2016 - Dec 2016

Authbase, Hyderabad, a NASSCOM 10K Startup

Fabricated the admin interface for the vulnerability search engine. Optimized the breadcrumb model to streamline the user navigation and reduce bounce rates to around 30%.

Teaching Assistant

Aug 2017 - Present

IIIT, IT-Workshop 12

NPTEL, Privacy and Security in Online Social Media

Mentored 900+ undergraduate students, teaching them scripting, web frameworks, data science & application security.

Web Administrator

July 2018 - Present

IIIT, Hyderabad, Prof. Abhijit Mitra

Prioritized the overhaul of UI/UX of various websites. Implemented migration from Plesk framework to Django & Wordpress.

SKILLS

Programming & Scripting:

C/C++, Python, JavaScript, R, HTML5, PHP

Web Technologies:

Web2py, Django, NodeJS, Bootstrap

Others:

SQL, Git, Selenium, MVC, SDLC, Linux, Lucene, BaseX, OpenGL3, Ontology, Web 3.0, Leadership, Product Design

ACHIEVEMENTS

2017	IIIT E-Cell Hackathon	Amazon
2015	Pratibha Scholarship	Aditya Birla Group
2015	Student of the Year	G.G. International School
2014	South Asian Finalist	Horlicks Wizkids
2013	Kaladeep Scholarship	G.G. International School

MAJOR PROJECTS

Location-based Privacy on Strava

Nov 2018

Developed an App that predicts the address of an user, within an accuracy of 50m, through their publicly shared routes shared on the fitness social network - Strava [\[Link\]](#)

2019 Indian Elections in the Online Space

Oct 2018

Implemented a real-time visualization portal for the Indian General Elections 2019 that provides analysis through Data Science tools as well as sociological methods to study the various discourses around the elections, online. [\[Link\]](#)

Twitter Sentiment Analysis

May 2018

Analyzed the sentiment score using maximum entropy which gave 78% accuracy, followed by Naive Bayes (75%) and SVM(72%). Used POS-tagging & stemming to improve the results. [\[Link\]](#)

2017 Gujarat Elections in the Public Space

Apr 2018

Analyzed the discourses on print & social media to find drastic devaiance in public opinion about the topics discussed over the two mediums. [\[Link\]](#)

Mortality Prediction of ICU Patients

Dec 2017

Predicted the likelihood of mortality of ICU patients given time series data of vital statistics to achieve an efficiency of 93% through SVM based approach, followed by Linear Bayes (92%) and Neural Nets (90%). [\[Link\]](#)

PROJECTS

Mini Shell

Aug 2017

Developed a mini shell supporting basic bash commands, redirection, piping, background processes & signal handling. [\[Link\]](#)

Mini SQL Engine

Aug 2017

Implemented a mini SQL engine to perform basic SQL operations like SELECT, FROM, WHERE along with aggregates and joins. [\[Link\]](#)

Dropbox Clone

Apr 2017

Implemented a system to keep two directories in sync by keeping track of file creation, updation & deletion over a network of nodes, each with its log file. Incorporated hashes to verify files. [\[Link\]](#)

POSITIONS OF RESPONSIBILITY

2018	IIIT-H	Student Placement Coordinator
2018	IIIT-H	Apex Member
2017	IIIT-H	Academic Help Cell Coordinator
2016	IIIT-H	Cultural Representative
2016	IIIT-H	Constitution Drafting Committee

SOCIAL CAUSE

Vaatsalya :Against Child Sexual Abuse | [Founder](#)

Vidyaashram : People's Knowledge Movement | [Volunteer](#)
