EDUCATION

International Institute of Information Technology

Hyderabad, India

B.Tech (Hons) in Computer Science
MS in Exact Humanities by Research
2015-2020

EXPERIENCE

Teaching Assistant

Jan 2019 - Present

IIIT, Big Data & Policing (60+); IT-Workshop 1&2 (200+)

Mentored undergraduate and postgraduate students, teaching them scripting, web frameworks, data science & application security

Teaching Assistant

Feb 2019 - Present

NPTEL, Privacy and Security in Online Social Media

Mentored 5000+ students across the country, on topics relating to online privacy concerns and security issues like spam, phishing, fraud nodes, identity theft etc.

Research Intern

June 2018 - Aug 2018

Indian School of Business, Hyderabad

Coordinated inter-domain analysis of VC firms & patents filed in India using data extracted through LinkedIn, VCC Edge & IP India.

Data Science Intern

June 2017 - July 2017

Lumata Digital, Noida

Implemented an n-gram sentiment analysis on search text based on username or hashtag that led to over 80% accurate sentiment detection of text and emoticons.

Software Engineering Intern

Aug 2016 - Dec 2016

Authbase, Hyderabad, a NASSCOM 10K Startup

Fabricated the admin interface for the vulnerability search engine. Optimized the breadcrumb model to streamline the user navigation and reduce bounce rates to around 30%.

SKILLS

Programming & Scripting:

C/C++, Python, JavaScript, R, HTML5, PHP

Web Technologies:

Web2py, Django, NodeJS, Bootstrap

Others:

SQL, Git, Selenium, MVC, SDLC, Linux, Lucene, BaseX, OpenGL3, Ontology, Web 3.0, Leadership, Product Design

ACHIEVEMENTS

2017	IIIT E-Cell Hackathon	Amazon
2015	Pratibha Scholarship	Aditya Birla Group
2015	Student of the Year	G.G. International School
2014	South Asian Finalist	Horlicks Wizkids
2013	Kaladeep Scholarship	G.G. International School

MAJOR PROJECTS

Location-based Privacy on Strava

Nov 2018

Developed an App that predicts the address of an user (within a 50m radius) through their publicly shared routes on the fitness social network - Strava

2019 Indian Elections in the Online Space

Oct 2018

Designed a real-time visualization portal for the Indian General Elections 2019 that provides analysis through Data Science tools as well as sociological methods to study the various discourses around the elections on Twitter.

Distributed Computation of Approximate MST

Sep 2018

Implemented Nearest Neighbor Tree scheme (NNT) in a weighted graph. Achieved an optimization of more than 4 times than an exact Minimum Spanning Tree.

Twitter Sentiment Analysis

May 2018

Analyzed the sentiment score using maximum entropy which gave 78% accuracy, followed by Naive Bayes (75%) and SVM(72%). Used POS-tagging & stemming to improve the results.

2017 Gujarat Elections in the Public Space

Apr 2018

Analyzed the discourses on print and social media to find drastic devaiance in public opinion about the topics discussed over the two mediums.

PROJECTS

Mini Shell

Aug 2017

Developed a mini shell supporting basic bash commands, redirection, piping, background processes & signal handling.

Mini SQL Engine

Aug 2017

Built an engine to perform basic SQL operations like SELECT, FROM, WHERE along with aggregates and joins.

Dropbox Clone

Apr 2017

Implemented a system to keep two directories in sync by keeping track of file creation, updation & deletion over a network of nodes, each with its log file. Incorporated hashes to verify files.

SOCIAL CAUSE

Vaatsalya :Against Child Sexual Abuse | Founder

Vidyaashram : People's Knowledge Movement | Volunteer

POSITIONS OF RESPONSIBILITY

2018	IIIT-H	Student Placement Coordinator
2018	IIIT-H	Apex Member
2017	IIIT-H	Academic Help Cell Coordinator
2016	IIIT-H	Cultural Representative
2016	IIIT-H	Constitution Drafting Committee
