EDUCATION

International Institute of Information Technology

Hyderabad, India

B.Tech in Computer Science

MS by Research in Exact Humanities

2015-2020

EXPERIENCE

Research Intern

June 2018 - Aug 2018

Indian School of Business, Hyderabad

Implemented inter-domain analysis of venture capital firms and patents filed in India using data extracted through LinkedIn, VCC Edge and IP India.

Data Science Intern

June 2017 - July 2017

Lumata Digital, Noida

Designed an n-gram sentiment analysis on search text based on username or hashtag. The implementation led to over 80% accurate sentiment detection of text and emoticons.

Software Engineering Intern

Aug 2016 - Dec 2016

Authbase, Hyderabad

Designed the admin interface for a vulnerability search engine for Authbase, a NASSCOM 10K startup. Implemented breadcrumb search for vulnerability search.

Teaching Assistant

Aug 2017 - May 2018

IIIT, Hyderabad

Taught undergraduate students python & bash scripting, web development, networking & application security & web frameworks.

Web Administrator

July 2018 - Present

IIIT, Hyderabad, Prof. Abhijit Mitra

Responsible for overhaul of frontend UI/UX of various websites. Implemented migration from Plesk to Django & Wordpress.

SKILLS

Programming & Scripting:

C/C++, Python, JavaScript, R, HTML5, PHP

Web Technologies:

Web2py, Django, NodeJS, Bootstrap

Others:

SQL, MongoDB, Git, Selenium, MVC, SDLC, Linux, Lucene, BaseX, OpenGL3, Ontology, Web 3.0

ACHIEVEMENTS

2017	IIIT E-Cell Hackathon	Amazon
2015	Pratibha Scholarship	Aditya Birla Group
2015	Student of the Year	G.G. International School
2014	South Asian Finalist	Horlicks Wizkids
2013	Kaladeep Scholarship	G.G. International School

MAJOR PROJECTS

Twitter Sentiment Analysis

May 2018

Analyzed the sentiment score using maximum entropy which gave the best results, followed by Naive Bayes and kernel SVM. Used POS-tagging & stemming to improve the results. [\[Link\]](#)

2017 Gujarat Elections in the Public Space

Apr 2018

Analyzed the discourse on print & social media to find drastic variance in topics discussed over the two mediums. Evaluated the differences in actual opinion of the public and what the media portrays. [\[Link\]](#)

Mortality Prediction of ICU Patients

Dec 2017

Predicted the likelihood of mortality of ICU patients given time series data of vital statistics. Analyzed different machine learning methods and their utility in this task. Achieved the best results through SVM based approach, followed by Linear Bayes and Neural Nets. [\[Link\]](#)

Improving Parsing Using Distributional Semantics

Aug 2017

Improved capabilities of a traditional CYK Parser to handle unknown words using distributional semantics to create a word embedding. Evaluated the parser using 'evalb' to achieve 84% precision, 71% recall & 77% fmeasure. [\[Link\]](#)

PROJECTS

Mini Shell

Aug 2017

Developed a mini shell which supports all basic linux commands like ls, cd, mkdir etc. Implemented background processes and signal handling along with avoiding zombie processes. [\[Link\]](#)

Mini SQL Engine

Aug 2017

Implemented a mini SQL engine in Python which was able to parse queries and perform basic SQL operations such as SELECT, FROM, WHERE along with aggregates and joins. [\[Link\]](#)

Dropbox Clone

Apr 2017

Implemented a system to keep two directories in sync by keeping track of file creation, updation & deletion in any of them. Implemented the system over a network of nodes, each with its log file. Incorporated hashes to verify files & MD5 checksum to handle file errors. [\[Link\]](#)

Ultimate 4x4 tic-tac-toe bot

Jan 2017

Developed an Ultimate 4x4 tic-tac-toe bot using minimax search and alpha-beta pruning along with a heuristic on board positions. [\[Link\]](#)

POSITIONS OF RESPONSIBILITY

2018	IIIT-H	Student Placement Coordinator
2018	IIIT-H	Apex Member
2017	IIIT-H	Academic Help Cell Coordinator
2016	IIIT-H	Cultural Representative
2016	IIIT-H	Constitution Drafting Committee
