## Education

**International Institute of Information Technology, Hyderabad**  
2015 - 2020  
B.Tech in Computer Science and MS by Research in Exact Humanities

## Work Experience

**Research Intern** June 2018 - Present

Indian School of Business, Hyderabad

Implemented inter-domain analysis of venture capital firms and patents filed in India using data extracted through LinkedIn, VCC Edge and IP India. Presently working on Twitter sentiment analysis to determine the effect of demonetization on venture capital firms.

**Data Science Intern** June 2017 - July 2017

Lumata Digital, Noida

Designed an n-gram sentiment analysis on search text based on username or hashtag. The implementation led to over 80% accurate sentiment detection of text and emoticons.

**Software Engineering Intern** Aug 2017 - Dec 2017

Authbase, Hyderabad

Designed the admin interface for a vulnerability search engine and for Authbase, a NASSCOM 10K startup. Implemented breadcrumb search for vulnerability search.

**Teaching Assistant** Aug 2017 - May 2018

IIIT, Hyderabad IT Workshop-1 & IT Workshop-2

Taught undergraduate students python and bash scripting, web development, introduction to networking and application security and web frameworks.

**Web Administrator** July 2018 - Present

IIIT, Hyderabad Prof. Abhijit Mitra

Responsible for overhaul of frontend UI/UX of various websites under the professor. Implemented migration from Plesk to Django and Wordpress.

## Technical Skills

### Programming & Scripting:

C/C++, Python, JavaScript, R, HTML5, PHP

### Web Technologies:

Web2py, Django, NodeJS, Bootstrap

### Others:

MySQL, Git, Selenium, MVC, SDLC, Linux, Lucene, BaseX, OpenGL3, Ontology, Web 3.0

## Achievements

|                       |                           |                |
|-----------------------|---------------------------|----------------|
| IIIT E-Cell Hackathon | Amazon                    | 2017           |
| Pratibha Scholarship  | Aditya Birla Group        | 2015 - Present |
| Student of the Year   | G.G. International School | 2015,13        |
| South Asian Finalist  | Horlicks Wizkids          | 2014           |
| Kaladeep Scholarship  | G.G. International School | 2013           |
| Star Correspondent    | Times of India            | 2013           |

## Major Projects

**Twitter Sentiment Analysis** May 2018

Analysed the normalized sentiment score using maximum entropy which gave the best results, followed by Naive Bayes and kernel SVM. Used POS-tagging and stemming to improve the results of the classifiers. [\[Link\]](#)

**2017 Gujarat Elections in the Public Space** Apr 2018

Analyzed the discourse on print and social media to find drastic variance in topics discussed over the two mediums. Evaluated the differences in actual opinion of the public and what the media portrays. [\[Link\]](#)

**Mortality Prediction of ICU Patients** Dec 2017

Predicted the likelihood of mortality of ICU patients given time series data of vital statistics. Analysed different machine learning methods and their utility in this task. Achieved the best results through SVM based approach, followed by Linear Bayes and Neural Nets based approach. [\[Link\]](#)

**Improving Parsing Using Distributional Semantics** Aug 2017

Improved capabilities of a traditional CYK Parser to handle unknown words using distributional semantics to create a word embedding. Evaluated the parser using 'evalb' to achieve ~84% precision, ~71% recall and ~77% fmeasure. [\[Link\]](#)

## Projects

**Mini Shell** Aug 2017

Developed a mini shell which supports all basic linux commands like ls, cd, mkdir etc. Implemented background processes and signal handling along with avoiding zombie processes. [\[Link\]](#)

**Mini SQL Engine** Aug 2017

Implemented a mini SQL engine in Python which was able to parse queries and perform basic SQL operations such as SELECT, FROM, WHERE along with aggregates and joins. [\[Link\]](#)

**Automatic File Syncing System** Apr 2017

Implemented a system which would keep two directories in sync by keeping track of file creation, updation and deletion in any of them. Implemented the system over a network of nodes, each with its log file. Incorporated hashes to verify files and MD5 checksum to handle file errors. [\[Link\]](#)

**Ultimate 4x4 tic-tac-toe bot** Jan 2017

Developed an Ultimate 4x4 tic-tac-toe bot using minimax search and alpha-beta pruning along with a heuristic on various board positions. [\[Link\]](#)

## Positions of Responsibility

|                                 |        |      |
|---------------------------------|--------|------|
| Student Placement Coordinator   | IIIT H | 2018 |
| Academic Help Cell Coordinator  | IIIT H | 2017 |
| Cultural Representative         | IIIT H | 2016 |
| Apex Member                     | IIIT H | 2017 |
| Constitution Drafting Committee | IIIT H | 2016 |

## Social Cause

**Founder | Vaatsalya:** A drive against child sexual abuse
