EDUCATION

International Institute of Information Technology

Hyderabad, India

B.Tech (Hons) in Computer Science

MS by Research in Computational Humanities

2015-2020

EXPERIENCE

Research Intern

June 2018 - Aug 2018

Indian School of Business, Hyderabad

Coordinated inter-domain analysis of venture capital firms & patents filed in India using data extracted through LinkedIn, VCC Edge & IP India.

Data Science Intern

June 2017 - July 2017

Lumata Digital, Noida

Implemented an n-gram sentiment analysis on search text based on username or hashtag that led to over 80% accurate sentiment detection of text and emoticons.

Software Engineering Intern

Aug 2016 - Dec 2016

Authbase, Hyderabad, a NASSCOM 10K Startup

Fabricated the admin interface for the vulnerability search engine. Optimized the breadcrumb model to streamline the user navigation and reduce bounce rates to around 30%.

Teaching Assistant

Aug 2017 - May 2018

IIIT, Hyderabad, IT-Workshop-1 & 2

Mentored 250+ undergraduate students, for 2 semesters teaching them scripting, web frameworks, networking & application security.

Web Administrator

July 2018 - Present

IIIT, Hyderabad, Prof. Abhijit Mitra

Prioritized the overhaul of UI/UX of various websites. Implemented migration from Plesk to Django & Wordpress.

SKILLS

Programming & Scripting:

C/C++, Python, JavaScript, R, HTML5, PHP

Web Technologies:

Web2py, Django, NodeJS, Bootstrap

Others:

SQL, Git, Selenium, MVC, SDLC, Linux, Lucene, BaseX, OpenGL3, Ontology, Web 3.0, Leadership, Product Design

ACHIEVEMENTS

2017	IIIT E-Cell Hackathon	Amazon
2015	Pratibha Scholarship	Aditya Birla Group
2015	Student of the Year	G.G. International School
2014	South Asian Finalist	Horlicks Wizkids
2013	Kaladeep Scholarship	G.G. International School

MAJOR PROJECTS

Twitter Sentiment Analysis

May 2018

Analyzed the sentiment score using maximum entropy which gave 78% accuracy, followed by Naive Bayes (75%) and SVM(72%). Used POS-tagging & stemming to improve the results. [\[Link\]](#)

2017 Gujarat Elections in the Public Space

Apr 2018

Analyzed the discourses on print & social media to find drastic devaiance in public opinion about the topics discussed over the two mediums. [\[Link\]](#)

Mortality Prediction of ICU Patients

Dec 2017

Predicted the likelihood of mortality of ICU patients given time series data of vital statistics to achieve an efficiency of 93% through SVM based approach, followed by Linear Bayes (92%) and Neural Nets (90%). [\[Link\]](#)

Improving Parsing Using Distributional Semantics

Aug 2017

Improved capabilities of a traditional CYK Parser to handle unknown words using distributional semantics to create a word embedding. Evaluated the parser using 'evalb' to achieve 84% precision, 71% recall & 77% fmeasure. [\[Link\]](#)

PROJECTS

Mini Shell

Aug 2017

Developed a mini shell which supports all basic linux commands like ls, cd, mkdir etc. Implemented background processes and signal handling along with avoiding zombie processes. [\[Link\]](#)

Mini SQL Engine

Aug 2017

Implemented a mini SQL engine in Python which was able to parse queries and perform basic SQL operations such as SELECT, FROM, WHERE along with aggregates and joins. [\[Link\]](#)

Dropbox Clone

Apr 2017

Implemented a system to keep two directories in sync by keeping track of file creation, updation & deletion in any of them. Implemented the system over a network of nodes, each with its log file. Incorporated hashes to verify files & MD5 checksum to handle file errors. [\[Link\]](#)

Ultimate 4x4 tic-tac-toe bot

Jan 2017

Developed an Ultimate 4x4 tic-tac-toe bot using minimax search and alpha-beta pruning along with a heuristic on board positions. [\[Link\]](#)

POSITIONS OF RESPONSIBILITY

2018	IIIT-H	Student Placement Coordinator
2018	IIIT-H	Apex Member
2017	IIIT-H	Academic Help Cell Coordinator
2016	IIIT-H	Cultural Representative
2016	IIIT-H	Constitution Drafting Committee
