PROJECTS CLICK TO VIEW

- AUGUST 2017 [Mini Shell](#) , OPERATING SYSTEMS
Developed a mini shell which would support all basic linux commands such as ls,cd,mkdir etc.
The shell also supported background processes , signal handling along with avoiding Zombie Processes.
- AUGUST 2017 [Mini SQL Engine](#) , DATABASES SYSTEMS
Developed a Mini SQL Engine in Python which was able to parse queries and perform basic SQL operations such as SELECT,FROM,WHERE along with aggregate and JOINS
- MARCH 2017 [Bloxorz 3D Game](#) , COMPUTER GRAPHICS
Developed my version of 3D game BLOXORZ using OpenGL(C++).
The game supported various features of the original game such as breakable tiles,holes and bridges.
- APRIL 2017 [Automatic File Syncing System](#) , COMPUTER NETWORKS
Developed a system which would keep two directories in sync with each other by keeping track of file creation,updatation and deletion in any of them.
- APRIL 2017 [Proxy Server](#) , COMPUTER NETWORKS
Developed a python based HTTP-Proxy Server capable of handling requests between multiple clients and servers
- JAN 2017 [Ultimate 4X4 Tic Tac Toe Bot](#) , ARTIFICIAL INTELLIGENCE
Developed an Ultimate 4By4 TIC TAC TOE BOT using minimax search and alpha beta pruning technique.
Also a heuristic was developed based on various board positions

ACHIEVEMENTS

- October 2015 | **Pratibha Scholarship**, Aditya Birla Group
- February 2015, 2013 | **Student of the Year**, G.G. International School Pune
- November 2014 | **South Asian Finalist**, Horlicks Wizkids
- June 2013 | **Kaladeep Scholarship**, G.G. International School Pune
- June 2013 | **Star Correspondent**, NIE Times of India
